CCTV SURVEILLANCE

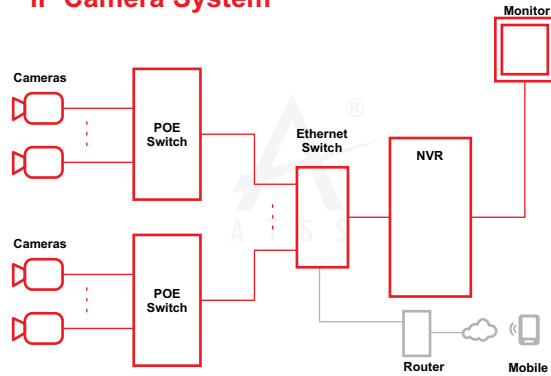

Video Surveillance Creates Awareness,
Evidence and Behaviour.

HD Camera System

IP Camera System

INSTALL CCTV FOR YOUR PREMISES TO MONITOR & SECURE

The residential sector is one of the fastest growing sectors in the security surveillance market with an increasing demand of technically advanced surveillance systems that are easy to install. From high-end Analog or IP integrated systems to mid-range systems, Atss provides a wide range of CCTV solutions.

The presence of video surveillance was also an effective deterrent. Nearly 60 percent of the burglars said they would consider the presence of cameras or other video equipment when selecting a target, and more than 40 percent said that would be a factor in prompting them to choose another target.

CENTRAL VACUUM CLEANER

Central House Vacuum Cleaner eases out your house's cleaning with efficient and well-equipped cleaning pumps.

ZERO-NOISE CLEANING & MAKING HOUSE CLEANING A FUN

Central vacuum system has a vacuum unit that can be conveniently placed in a concealed location like the garage or power room. It has a cleaning port in every room of the home which is connected through a series of concealed vacuum pipes.

Centralized vacuuming systems are associated with several stereotypes of being inconvenient, noisy, expensive, and much more, making the homeowners keeping the option of preferring central vacuum over a portable one aside when it comes to installing a cleaning system.

Customer Pains

Cleaning your home is hectic

Customer Gains

Central vacuum system makes cleaning more efficient and effective than ever

Pain Relievers

Central house vacuum cleaner eases out your house's cleaning with efficient and well-equipped cleaning pumps

Gain Creators

Keeping your residential house clean is an essential aspect that must be fulfilled in order to lead a healthy life

Solid & Liquid Cleaning

Drains directly into your sewer system

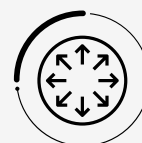

Portable & Bagless Models

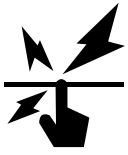

Noise Less

High Power

Multiple Capacities

ELECTRIC FENCE

Keep intruders perimeters away.

Deter potential intruders from accessing your property.

PERIMETER PROTECTION & ALERTING THE OWNER BY ALARM

Electric Fence is a barrier through which an electric current can be passed, giving an electric shock to any person or animal touching it.

IS AN ELECTRIC FENCE DANGEROUS?

No, an electric fence is not dangerous. The voltage being sent through the wires is high, but the current or amplification (amps) is very low. A 220-volt shock will hurt just as much as a 10,000-volt shock, as long as the current or amps are the same. Amps are what kills. Electric fence energisers put out high voltage (around 8,000 volts), but very low amperage or current (around 120 milliamps). This is 120-thousands of an amp. It should not even kill a squirrel.

Customer Pains

Not being able to protect from perimeter intrusion

Customer Gains

Keep intruders perimeters away

Pain Relievers

Uses electric shocks to prevent intrusion activity at your premises

Gain Creators

It is safe, reliable and protects the premises

Non Lethal but Powerful Shock

Alarm Generation

Low Power Consumption & Maintenance

Easy to Install or Assemble

Cost Effective

Psychological Barrier

GARAGE DOOR AUTOMATION

Garage door openers provide the luxury of automatically operating the door from your car

YOU CAN OPEN AND CLOSE YOUR GARAGE DOOR HASSLE-FREE

A garage door is a large door on a garage that opens either manually or by an electric motor (a garage door opener). Garage doors are frequently large enough to accommodate automobiles and other vehicles. Small garage doors may be made in a single panel that tilts up and back across the garage ceiling. Larger doors are usually made in several jointed panels that roll up on tracks across the garage ceiling, or into a roll above the doorway.

An automated garage door is the response to your need for practicality and convenience. Forget the bother and effort of having to lift heavy doors.

Customer Pains

Need to get out of your car to open or close the garage

Customer Gains

A garage door should make your life easier and your home more manageable and convenient

Pain Relievers

Garage door openers provide the luxury of automatically operating the door from your car

Gain Creators

Garage door opener helps to keep your family, home, and possessions safe

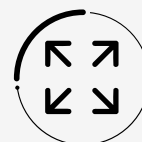

Increased Energy Efficiency

Produce Less Noise

Better Protection for your vehicles

More living Space

**Ensure
worker's health**

GATE AUTOMATION

Gate automation is now commonly accepted as one of the best options to secure your property.

AUTOMATIC GATES OFFER CONVENIENCE, SECURITY, & ALSO ADD VALUE TO ANY PROPERTY.

A gate operator is a mechanical device used to open and close a gate, such as one at the end of a driveway. There are two main types of electric gate openers – hydraulic or electromechanical; these can be further split into the following categories, worm (or screw) driven, arm openers and underground openers.

Automatic and Electric Gate operators are designed for both swinging and sliding gates. They can be programmed to open and close with a wireless transmitter or a manual device. Low Voltage Automatic Gate openers can also be fitted with solar panels to ensure function during loss of electricity or blackouts.

Customer Pains

Not being able to control the entry and exit of outsiders

Customer Gains

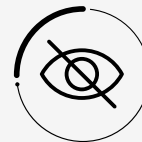

Convenience of allowing homeowners to control entrance and exit

Pain Relievers

Provides protection from vandalism and various threats

Gain Creators

Control vehicular access on and off of the site

More Privacy

SOLAR ENERGY

Generating your own electricity means that you will be using less from the utility supplier

SOLAR ENERGY IS THE CLEANEST & MOST ABUNDANT RENEWABLE ENERGY

For most homes, solar panels for home means rooftop solar panels – a solar array installed on your roof that generates electricity from the sun and helps you reduce your monthly spending on electricity.

On-Grid - Supply of electricity can flow from the grid to which it is connected to the user's home and from the user's home to the grid.

Off-Grid - Solar system is not connected to the power grid but instead the energy produced during the day from the sun's rays, is stored in batteries.

Hybrid - Solar system and others is that it has both battery backup and connection to the grid.

Customer Pains

Interruption in the supply of electricity

Customer Gains

Solar power is the most popular type of alternative electricity source that can be easily installed in your home

Pain Relievers

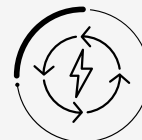

Solar Energy keeps your home powered during blackouts

Gain Creators

Reduce The Cost Of Your Energy Bill

Eco-friendly

Renewable Energy

Economical

Low Cost Maintenance

Silent Operation

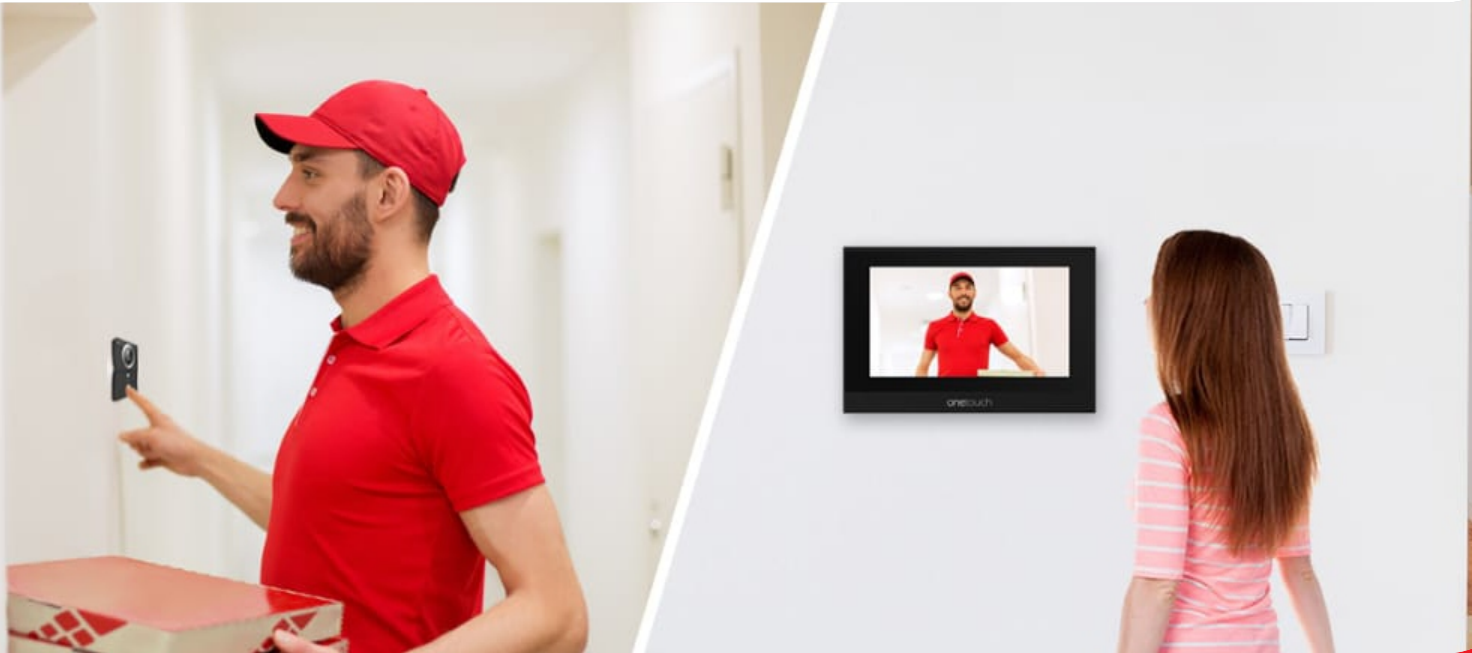

Power for any location

VIDEO DOOR PHONE

Lets you see who is knocking at your door before you open it

VIDEO DOOR PHONE GIVES YOU THE CHOICE OF WHO IS ALLOWED IN – AND WHO IS NOT

Would you like to know who is at the door before you let them in?

Using Video Door Phone lets you see who is knocking at your door before you open it.
